SKILLS

React, Next.js, Ruby on Rails, HTML5, CSS3, SASS, jQuery, Bootstrap, Tailwindcss, Stimulus, MySQL, RSpec, Capybara, Jest, Git, GitHub, Sanity, WordPress, Elementor.

EXPERIENCE

Ruby on Rails Developer   May 2021 - Current
Catprint, Fairport, New York

- Implement new features and fix reported bugs on Catprint's official website.
- Write functional, unit, and integration tests for application quality assurance.
- Convert Figma designs to full-functioning web pages.
- Use the version control tool Git and code storage tool GitHub for added application functionality.

Full Stack Developer   March 2019 - April 2021
Remote

- Implement new features and fix reported bugs on the JobsAtRemote website.
- Design layouts to display the job data received from external API.
- Researched and added content about remote companies hiring worldwide using WordPress CMS.

Manual Test Engineer   October 2017 - March 2019
Pole To Win, Bangalore India

- Worked closely with a team of software developers to implement the deep linking feature of the "Wizard of Oz" app for iOS, Android, and Kindle platforms.
- Managed a team of five manual test engineers to perform functionality and regression testing for a holiday sale feature that pushed the "Wizard of Oz" app to "Top 10 trending" games.

HIGHLIGHTED PERSONAL PROJECTS

Nextjs Estore: Project Link
- A fully responsive e-commerce website that is built with Next.js, database management is done through Sanity, and payment processing is done via Stripe.
- Users can add items to the cart, add/remove cart items, and checkout via card payments.

Admin Dashboard: Project Link
- Admin Dashboard shows various statistics of data that a modern app dashboard contains. The project is built with React.js, Material UI, Nivo Charts, Formik, Yup, FullCalendar, and Data Grid.
- This application consists of Light and Dark Mode, 4 different Charts, 3 different Data Table Pages, FAQ Page, Form Page, and Calendar Integration.
